ARTQUEST AT THE BMA!

MENU OF TOUR THEMES 2009

THE GRAND TOUR

Be a world traveler! At the BMA, you can visit people and places from the past and present. Pack your bags for a voyage throughout Europe! Stops include the canals of Venice, beaches in France, and the Thames River in London!

PATTERN POWER

Join in an adventure that looks carefully at works of art where patterns help to tell a story. Explore how artists use patterns to move the eye, excite the imagination, and uplift the spirit! Discover patterns in the Baltimore album quilts, painted furniture, and a special interactive work of art that campers can touch!

TRADITIONS AND EXPLORATIONS

Learn about African art and how African-American artists have been influenced by other artists, art of the past, or their own heritage. Explore a range of art from African masks and power figures to the first professional African-American artist, Baltimore's own Joshua Johnson!

Please let us know what your campers will be doing/studying so we can develop the tour and activities to complement your camp offerings. Tours highlight art from The Baltimore Museum of Art's permanent collection and temporary exhibitions. Studio art activities vary according to age and descriptions are available upon request. Please discuss your needs with us and we will gladly make every effort to fulfill your requests.
